

STRATEGY 2022-2032

Making medical science work for everyone

OUR VISION

Good health for all
supported by the best
research and evidence

OUR MISSION

The Academy's mission is to help create an open and progressive research sector to improve the health of people everywhere

We support researchers with innovative funding and career development opportunities

We help create a more sustainable environment for delivering outstanding research

We help researchers to work with academia, charities, the public, policy makers and industry to make the greatest difference to health

OUR STRENGTHS

We are the independent, expert voice of biomedical and health research in the UK

- A Fellowship of the most influential scientists in the UK and worldwide
- An inspiring community of emerging and established research leaders
- Connections across the science sector including National Academies, charities and industry
- A vibrant and growing network of European and global partnerships and collaborations
- An ability to influence policy by connecting the insights of our Fellowship, researchers, patients and the public
- The meaningful involvement of patients and the public to shape our work
- A talented and committed staff team who embody our values

OUR VALUES

We strive for excellence

We act on evidence

We behave with integrity

We collaborate widely

We are inclusive and actively seek diversity in all forms

We are agile, kind and resilient

STRATEGIC PRIORITIES 2022-2032

Improve lives

We will influence policy and practice to improve the lives of patients, the public and communities.

Strengthen research

We will support UK biomedical and health research to strengthen its global competitiveness and reputation.

Support researchers

We will support the next generation of researchers to reach their full potential.

Work globally

We will work with our partners to increase the Academy's impact on global health.

Build resources

We will build our resources to ensure our long-term independence and effectiveness.

OUR SUCCESS MEASURES

By 2032 we will have:

A Fellowship and alumni network that is more reflective of the society we live in with a broader diversity of expertise, experience and background

Built collaborations that reflect the breadth of expertise across the medical sciences, health and social care, and the many disciplines now relevant to health

Influenced policy and practice to drive the greatest health gains for society

Supported researchers of today to develop the skills and expertise needed so they are excelling as research leaders in 2032

Meaningfully involved patients and the public across all our activities and in the way we work

Demonstrated agility, innovation, efficiency and environmental sustainability

SUMMARY

Strategy 2022-2032

OUR VISION

Good health for all supported by the best research and evidence

OUR MISSION

Create an open and progressive research sector to improve the health of people everywhere

OUR PRIORITIES

1. Improve lives
2. Strengthen research
3. Support researchers
4. Work globally
5. Build resources

OUR VALUES

Strive for excellence
Act on evidence
Behave with integrity
Collaborate widely
Seek diversity

Please support us to create an open, progressive and diverse medical research community that is able to address the most pressing, unanswered questions facing medical science.

We are grateful to all the donors and funders who support our work, especially members of the Helix group members who give £250 a year to support us.

To join our supporters and help secure our vision for 2032:
