

## Frequently Asked Questions

The below FAQs have been generated following feedback from the first round of the scheme. If you have any specific questions, please contact the Academy of Medical Sciences team at [gcrfnetworking@acmedsci.ac.uk](mailto:gcrfnetworking@acmedsci.ac.uk).

“How do I invite collaborators?” ..... 1  
 “What does ‘ODA compliance’ mean?” ..... 2  
 “I have been invited to participate on an application – what does this mean?” . 3  
 “How can I submit my application?” ..... 5  
 “What are eligible costs for this scheme and how can I break down the finances of the £25,000 award? How do I present them in the application?” ..... 6

### “How do I invite collaborators?”

The application form should be started by the Lead Overseas Applicant, and it is their role to invite collaborators to complete the form. The collaborators are:

- The Co-applicant (UK)
- Head of Department - overseas
- Finance – Overseas Institution
- Head of Department - UK
- Finance – UK Institution

Contact between the overseas researcher and the UK researcher prior to submission of the application is essential and the form will be jointly submitted by both researchers. This contact should lead to a clearly defined and mutually beneficial networking grant proposal. When the lead overseas applicant starts the application, you will be presented with this page:

**Before starting your application**, please note that lead applicants should first navigate to the Participants tab. Invitations must be sent to the following individuals:

- UK Co-applicant
- UK Head of Department
- UK Finance Officer
- Overseas Head of Department
- Overseas Finance Officer

An overview of the submission process is below:

**The deadline for applications is Thursday 3 November 2022**

Each application to the GCRF Networking Grants scheme must be completed by 2 applicants: one based in a DAC-listed country and one based in the UK. **Please note**, the overseas researcher must be the lead applicant and therefore must start the application by clicking 'start' below. The UK-based researcher must then be added as a co-applicant.

Before completing your application please:

- Read the eligibility criteria carefully before completing an application form (more information can be found on our [website](#))
- Engage with your supervisors, mentors and other senior academics when preparing your application
- Refer to the guidance notes to help complete this form (available on our website [here](#))
- Refer to the Frequently Asked Questions document available [here](#)
- A sample version of the application form can be found [here](#)

Questions marked with a red asterisk \* are mandatory.

---

**Your contact information**  
 If you need to change your contact details during your application, you can do so here. Update

---

Application    Participants ●

The lead overseas applicant should select the 'Participants' tab:

Application Participants **3**

In order to submit your application, both applicants need to have two declarations each, confirming the validity of the application. The required signatories are your respective Heads of Department and Finance Officers.

To invite your signatories, simply locate them on the table below and click 'Invite'. You will then be prompted to enter their name and email address. They will then receive an automated email asking them to accept your collaboration request. We strongly recommend you contact them yourself before inviting them through the system.

For more guidance, read our [FAQ document](#)

▼ Ongoing Declarations		
Role	Assigned	Status
Head of Department - Overseas		Required <span>Invite</span>
Head of Department - UK		Required <span>Invite</span>
Finance - Overseas Institutions		Required <span>Invite</span>
Finance - UK Institution		Required <span>Invite</span>
Co-applicant		Required <span>Invite</span>

From here, you can 'invite' each collaborator by entering their name and email address.

### “What does ‘ODA compliance’ mean?”

This scheme is funded by the Global Challenges Research Fund (GCRF), which is a £1.5 billion fund announced by the UK Government to support cutting-edge research that addresses the challenges faced by developing countries. The Fund forms part of the UK's Official Development Assistance (ODA) commitment. As such, successful applications through this scheme must be able to demonstrate ODA compliance. There is a question on the application form for applicants to demonstrate how their proposal meets the criteria of ODA and this is assessed in detail during the review process.

In order to meet the ODA compliance criteria, GCRF proposals must make it clear that its primary purpose is to promote the economic development and welfare of a developing country or countries. Applicants should:

- Seek to investigate a specific problem or seek a specific outcome which will have an impact on a developing country or countries on the DAC list;
- Provide evidence as to why this is a problem for the developing country or countries;
- Address the issue identified effectively and efficiently;
- Identify appropriate pathways to impact to ensure that the developing country benefits from the research.
- Any benefit to the UK or other developed countries must be the secondary consideration and should not lead to a project being funded if it doesn't primarily deliver the development objective.

Applications that do not meet the criteria for ODA funding will not be eligible to receive an award. To read more around ODA, please read the scheme notes on our [website](#).

## “I have been invited to participate on an application – what does this mean?”

If you have received an invitation asking you to participate on an application, this means that you are invited to be a collaborator on this application, and you will receive an email with a link to our online application portal, Flexi-Grant. Following this link will take you to Flexi-Grant and you will either need to login if you already have an account, or register on our system.

**You will be notified if we already have an account on our system for your email address, so please login using your existing details. If you have forgotten your password, please click the ‘forgotten password’ option on the log in page.**

### Request for Declaration

has requested your help to complete an application for **GCRF Networking Grants - Round 8**  
They have requested your assistance with the role: **Head of Department - Overseas.**  
The closing date for this application is: **3 November 2022**

Please choose whether you would like to accept or decline this request. If you accept the request we will ask you to review and complete part of the form, however you will be able to cancel your participation later if required.

Accept Request  Decline Request

**Please note, you must use the same email address to register an account as the one which the invitation was sent to. If you do not, it can cause technical issues and you may be unable to access the application form.**

## Login

To access certain sections of the portal you must be a registered user and logged in using your user name or email address. You can register using the 'Register' button in the top menu bar.

Email

Password   
[Show Password](#)

Remember me?

[Login](#) [Forgot password?](#)

Once here, you should be able to navigate to 'Application Portal' on the top left of the screen. This will allow you to 'Start' a new application, or to 'Resume' the current application.

Select 'Resume' and you will be taken to your contribution page. Depending on the role of the collaborator, some pages will appear as 'View', and one should appear as 'Start':

Number	Page	Est. time to complete	Status	Required documents
1	Eligibility criteria - overseas researcher		Not Started	<a href="#">View</a>
2	Eligibility Criteria - UK researcher		Not Started	<a href="#">View</a>
3	Lead applicant		Not Started	<a href="#">View</a>
4	Co-applicant		Not Started	<a href="#">View</a>
20	Finance Office (UK) declaration		Not Started	0 / 1 <a href="#">Start</a>

Complete the necessary sections of the form and select 'Finish contribution' once you are happy with the details, and then select 'Submit' if you are happy to complete your statement, or Cancel if you would like to edit this further. **Please note, once submitted the declarations cannot be edited again.**

Once submitted, the following message will appear at the top of the screen:

**Your form has been successfully saved, submitted and your contribution completed.**

Please note, the Flexi-Grant system will automatically assign you the permission status of 'Primary applicant', however the system will correctly assign you the collaborator role and not the applicant role.

### “How can I submit my application?”

The lead overseas applicant must invite the Participants, who will complete their declarations. The Heads of Department and Finance Officers must complete their sections of the form, and must 'Record declaration as complete'. Once this has been completed, the UK researcher will have the option to 'Record Declaration as complete' at the bottom right hand of the Summary page:

19	Finance Office (overseas) declaration	Complete	View
20	Finance Office (UK) declaration	Complete	1 / 1 View

[Record Declaration as Complete](#)

Once this is complete, the lead overseas researcher will also be able to submit the declaration.

[View eligibility criteria](#)

Each application to the GCRF Networking Grants scheme must be completed by 2 applicants: one based in a DAC-listed country and one based in the UK.

Once this is complete, the application is formally submitted, will move onto the “Eligibility checking” stage and will show as ‘Under assessment’

An overview of the submission process is shown below:

**“What are eligible costs for this scheme and how can I break down the finances of the £25,000 award? How do I present them in the application?”**

The finance breakdown is an important part of the application and careful consideration should be given to this part of the form. The Office check this section carefully upon receipt of your application. Any costs which are ineligible for this scheme will be removed. Any costs which are unclear will be queried with the applicant. It is therefore important that applicants provide a clear breakdown of their funding request. Detailed breakdown of these costs will allow easier assessment of the finances by both the in-house team, and the referees.

The budget table asks applicants to break down the costs into the following categories:

- Consumables for obtaining pilot data
- Travel and subsistence costs
- Event costs
- Administrative support
- Technical support access
- Use of animals

A detailed breakdown of each of these costs is given in the scheme notes on our [website](#).

An example of this is given below:

Category	Estimated cost (£)	Justification of cost
Consumables	x	N/A
Travel and subsistence costs	x	2 x flights for UK researcher overseas (@ £x each). 4 x nights accommodation for UK researcher (@£x each). 5 days of food and subsistence (@ £x each). 1 x VISA  The UK researchers will travel overseas to attend the workshop in [month], and will arrive in advance to help with preparation of the event. Food and accommodation are based on local rates.
Event costs	x	Room booking at this [location] for this [duration], including AV use.  This is a quoted cost from the venue.
Administrative support	x	Admin support from the universities to support the activities.  We will be using the services of the university admin team, who charge £X for fees to hold the event. This will not be used to cover salaries
Technical support access	x	N/A
Use of animals	x	N/A
