

UK-India symposium on antimicrobial resistance

Date: 4 (8:30-19:30) and 5 (8:30-17:00) February 2019 Location: The Hallam Conference Centre, 44 Hallam Street, London, UK

Day 1:

08:30-09:00	Registration
09:00-09:20	Welcome and introductions
	Welcome Speakers: Professor Robert Lechler –President of the Academy of
	Medical Sciences and Dr Gogtay from the Yusuf Hamied Foundation (5 min)
	Meeting Introduction: Professor David Heymann- Chair of the Steering Group
	(15 min)
9:20-10:00	The challenge in the UK and India
	Speakers (20 min each):
	Professor Dame Sally Davies, Chief Medical Adviser to the UK
	Government
	 Professor Krishnaswamy VijayRaghavan, Principal Scientific Adviser to
	the Government of India
	The speakers will outline the state of play in each country, including what
	actions each country has already taken and where they think the biggest
	challenges still lie.
10:00-10:30	Refreshment break
10:30-12:00	Session 1: The extent of the problem and how to measure progress
10100 12100	Chair: TBC
	Panellists - 10 mins each followed by Q&A:
	Dr Kamini Walia (Indian Council of Medical Research)
	 Professor Susie Dunachie (University of Oxford)
	 Professor Ramanan Laxminarayan (Center for Disease Dynamics,
	Economics & Policy)
	 Professor Sharon Peacock (University of Cambridge)
	• Dr Liz Tayler (World health Organization)
	This session will focus on how the levels of AMR are measured in humans,
	animals and the environment, at global, national, and regional levels. The session will also explore how to measure progress in reducing AMR, and what
	success will look like. The session will also reflect on how to assess the extent
12:00-13:00	of AMR in both high and low-resource settings.
13:00-14:30	Session 2: How resistance develops and how to reduce it
13.00-14.50	Chair: Professor Asad Khan
	Panellists - 10 mins each followed by Q&A:
	Dr Abdul Ghafur (Chennai declaration on AMR)
	Professor Timothy Walsh (Cardiff University)
	Dr Mark Holmes (University of Cambridge)
	Professor Syma Khalid (University of Southampton)
	• Professor Sandhya Visweswariah (Indian Institute of Science)

The Academy of Medical Sciences

	This session will focus on what is known about the basic biology of how
	resistance develops and how this can inform the treatment of animals in food
	production, prescribing practices, and interactions with the environment,
	including wild animals and computational algorithms to predict resistance.
14:30-15:00	Refreshment break
15:00-16:30	Session 3 Minimising antimicrobial use while maintaining essential
	access: preventing infection
	Chair: TBC
	Panellists - 10 mins each followed by Q&A:
	Dr Sanjeev Singh (Amrita Institute of Medical Sciences)
	Dr Osman Dar (Chatham House)
	Professor Alison Holmes (Imperial College London)
	• Dr Rajesh Bhatia (Food and Agriculture Organization)
	• Mike Whelan (Coalition for Epidemic Preparedness Innovations)
	This session will explore the most effective ways to prevent infections spreading in environmental, animal, and human contexts. As such, this session will explore how to prevent infections arising from known sources such as hygiene facilities, effluent discharge from hospitals and factories, and how to prevent hospital-acquired infections. This session will also focus on the use of vaccines to reduce the number of infections and use of antibiotics.
16:30-16:45	Wrap up session
	Chair: Chair of Steering Group – David Heymann
	Summary of the day and invitation to network during the evening session.
16:45-17:15	Break
17:15-18:00	Evening keynote presentation
	Speaker: Dr Soumya Swaminathan (TBC), Deputy Director-General for
	Programmes, WHO
18:00-19:30	Evening networking session
	Refreshments and canapés provided.

Day 2:

08:30-09:00	Registration
09:00-09:15	Welcome
	Chair: Chair of the Steering Group - David Heymann
	Summary of day one and introduction of the aims of day two.
09:15-10:45	Session 4 Minimising antimicrobial use while maintaining essential
	access: optimising currently available interventions
	Chair: TBC
	Panellists - 10 mins each followed by Q&A:
	Professor Roger Jeffery (University of Edinburgh)
	Professor Claire Heffernan (Royal Veterinary College)
	• Dr Nusrat Shafiq (Postgraduate Institute of Medical Education and
	Research)
	Professor Helen Lambert (University of Bristol)
	This session will cover how to ensure that current interventions designed to treat infections are used effectively and responsibly, and that antimicrobial access and provision is appropriate. This will include topics as rapid diagnostics and precision prescribing practices to ensure that antimicrobials are only used when necessary in clinical settings. It will also reflect on current food production practices, the use of antibiotics in growth promotion and how best to prevent zoonotic diseases. This session will also explore how antimicrobials are
	accessed in both the UK and India, and discuss prescribing practices, clinician attitudes to antimicrobial use, patient behaviour and expectations, public
	awareness campaigns, and stewardship.
10:45-11:15	Refreshment break
11:15-11:45	Keynote presentation
	Speaker: Lord Jim O'Neill, Chair, Chatham House
11:45-12:45	Spark session- Collaboration in practice
	Chair: TBC
	Speakers- 10 min each:
	Professor Seshadri Vasan (Public Health England)
	Dr Ghada Zoubiane (Wellcome Trust)
	Ruth Neale (Nesta)
	Naomi Beaumont (UKRI)
	Further speakers TBC
	This session will provide an opportunity for invited organisations to share their examples of establishing collaborations between India and the UK, highlighting any successes and challenges. There will be 6 presentations about 5-10 minutes in length. Participants are encouraged to visit the organisations stalls during lunch.
12:45-14:00	Lunch
14:00-15:15	Breakout sessions
	Chair: TBC
	Facilitators: Session Chairs and rapporteurs for each breakout

	Four breakouts:
	1. Surveillance and monitoring
	2. Reducing resistance development
	3. Preventing infection
	4. Optimising current interventions
	Each break-out session will draw on the relevant discussion session and is
	chaired by the session Chair. Each group is tasked with identifying the biggest
	challenges for that topic and discussing what could be achieved in the next two
	years to progress each challenge.
15:15-16:30	Feedback from the breakouts and next steps
	The rapporteur from each session presents back the challenges and actions for
	focus from each breakout (10-15 mins each).
16:30-17:00	Summary and Closing Session
	Summary of the conference and the areas that have been identified as those
	that should be focussed on for action before the next conference.
17:00	End
