

The University of Edinburgh Medical School

---

### ***Implemented Activities***

We created 17 videos covering the key Intercalated BMedSci programmes at the University of Edinburgh's Medical School:

- [Edinburgh Videos](#)

This resource has supported the Medical Schools transition to a new 6-year course, in which all students may pursue intercalated honours.

### ***Impacts***

Previously there were only narrative website descriptions which gave students only a basic introduction to each course. Metrics on the website show that each of these videos has been viewed on between 78-337 occasions.

Students who intercalate are more likely to be involved in extracurricular research (81% vs. 51%) and are more likely to apply for the academic foundation programme (42% vs. 18%) (Phillips et al, 2014).

INSPIRE is coordinated by the Academy of Medical Sciences and supported by the Wellcome Trust. INSPIRE activities are designed and delivered locally by individual medical schools.
