4 October 2021

Dear Fellows,

Election of Council members for 2022

On behalf of the President and Council, I invite you to consider the list of candidates nominated this year and cast your votes online.

Following the record voter turnout in last year's trial of a digital election, we are delighted to collaborate once again with Civica Election Services to deliver this year's election. I urge Fellows to take advantage of this accessible opportunity to participate in an important Academy governance process. The Academy Council should be representative of the Fellowship itself and it is vital that Fellows express their preferences for the composition of our governing body.

This year's election will fill **four** vacancies on Council for 2022 and I am pleased that the ballot list offers a diverse range of candidates in terms of subject expertise, gender, geography and ethnicity. My thanks to those Fellows who have helped us to achieve this – either by standing for election, supporting candidates or encouraging the participation of others in any way. We appreciate the time this takes and are mindful of the commitment it entails.

A [full list of candidates and details of their supporting nominators](#) is available on our election platform and also on the [Academy website](#). Candidate statements are included in the ballot materials online. Please follow the instructions provided to vote electronically.

The ballot will close at 17:00 on Monday 8 November and the results of this year's election will be announced at the Academy's Annual Fellows' Meeting on 7 December 2021 - after which they will appear on the Academy website.

Yours sincerely,

41 Portland Place
London W1B 1QH
