

Hull York Medical School

Implemented Activities

The "Path to Science" Lecture Series:

- 5 separate lectures from renowned academics focussing on routes into academia.

The "Research Made Easy" Methodology & Translational Research Workshop. Topics covered included:

- 'Introduction to INPSIRE.'
- 'Life as a clinical Fellow.'
- 'Case studies of Translation Science.'
- 'Size and Power Matters!'
- 'You've got the money! Now what?'
- 'Patient perspectives: Improving Research Design & Delivery.'
- 'Role of a good PI'.
- 'Population and Health Services Research.'
- 'Animal and Translational Research'.
- Clinical Trial Workshop.

The "INSPIRE Career Fair and Summer Project Pitches":

- Lectures laid out the possible academic career pathways for a doctor and possible vocational projects.
- A dinner for PIs and students to engage informally and discuss career paths and possible summer project matches.

INSPIRE Summer Projects:

- Students were matched with PIs.

The NSAMR – Virtual Conference:

- Participation in their conference through webinar links.

Impacts

Awareness:

- The INSPIRE scheme allowed the School to look into existing schemes at HYMS which aim to increase student awareness and engagement with medical science and research.

Student Exposure:

- INSPIRE allowed the School to enhance student exposure to medical science and encourage them to think ahead about planning research projects as part of their medical studies at HYMS but also beyond medical school.

INSPIRE is coordinated by the Academy of Medical Sciences and supported by the Wellcome Trust. INSPIRE activities are designed and delivered locally by individual medical schools.

wellcometrust

Building on Success:

- INSPIRE allowed the School to build on, year on year, a successful engagement programme, which the School is planning on taking forward beyond year 2018 as part of HYMS optional curriculum.

INSPIRE is coordinated by the Academy of Medical Sciences and supported by the Wellcome Trust. INSPIRE activities are designed and delivered locally by individual medical schools.
